Product technical sheet

Characteristics: Raw fabric plot. Glassfiber smooth covering.

Ideal use: A solution to cover the walls of any kind of environment in residential or commercial areas. The finish of the product is a light texture that enhances the design and makes it tactile.

The wall: In order to be covered it must have a dry and well-shaven surface. For all those cases where the wall is not smooth, as in the case of tiles, the surface will have to be properly plastered and shaved.

Cleaning: Request information sheet.

Technical features:	weight	195 (+/- 15%) gr/m2	
	height	95 cm.	
	fire rating	Euro class: B-s1-d0 class	
	formaldehyde emission	Passed	
	Passed	EN15102:2007/A1:2011 - par.4.2
