

Labtela Scent

Product technical sheet

Characteristics: Vinyl wall covering with heavy vinyl front side. Back side in non-woven fabric.

Ideal use: A solution to cover the walls of any kind of environment in residential or commercial areas. The finish of the product is a light texture that enhances the design and makes it tactile.

The wall: In order to be covered it must have a dry and well-shaven surface. For all those cases where the wall is not smooth, as in the case of tiles, the surface will have to be properly plastered and shaved.

Cleaning: Request information sheet.
